

RUNBIKECALC.COM

The RunBikeCalc Setup Shopping List

Four complete kits, each in three builds (Budget / Standard / Premium): beginner runner, triathlon race day, cycling, and Hyrox training

Each kit comes in three builds: Budget, Standard, and Premium. Every build keeps the pieces in balance at its target budget so nothing is the weak link. Click any product name to open it at the linked store (Backcountry or Amazon). Prices move often, so treat the totals as a planning snapshot and confirm sizing and current pricing before you buy.

Beginner Runner Starter Kit

\$208 TO \$2,250

Everything a new runner actually needs: shoes, a watch that tracks pace and heart rate, and the small stuff (socks, anti-chafe, recovery) that veterans wish they had bought on day one. Pick the build that matches your budget; nothing at any tier is filler.

Budget build

~\$208

Start running for about the price of one premium shoe: an honest entry-level trainer, a GPS watch that covers pace, distance, and heart rate basics, and the comfort items that keep you on the road. Upgrade pieces as the miles pile up.

Product	Approx price	Buy link
Nike Revolution 8 NIKE · ENTRY DAILY TRAINER	\$75	Amazon

Triathlon Race Day Setup

\$591 TO \$3,682

The complete swim-bike-run checklist for race morning, assuming you already own the bike and running shoes. A multisport watch, open-water swim gear, race fuel, and the transition-bag small stuff that saves minutes for free.

Budget build

~\$591

A complete race-morning setup for your first sprint or Olympic tri without the four-figure spend: a proven budget multisport watch, a sleeveless wetsuit, and the same transition small stuff the podium finishers use.

Product	Approx price	Buy link
COROS Pace 3 COROS · MULTISPORT GPS WATCH	\$229	Backcountry

Cycling Setup

\$173 TO \$1,910

From daily commuting to fast weekend road rides. The Budget and Standard builds cover the commuter essentials (lights, lock, cargo, rain gear, flat-fix kit), while the Premium build is a full road-cycling upgrade: clipless pedals and shoes, a bib-and-jersey kit, and a flagship bike computer.

Budget build

~\$173

Bare-bones but road-legal and self-sufficient: helmet, lights, lock, rain shell, fenders, and the flat-fix kit. Everything functional, nothing fancy.

Product	Approx price	Buy link
Retrospec Lennon Bike Helmet with LED Light RETROSPEC · COMMUTER HELMET	\$40	Amazon
Ascher USB Rechargeable Bike Light Set ASCHER · LIGHT SET	\$17	Amazon

Estimated Premium total: **\$1,910**

Hyrox Training Kit

\$246 TO \$3,742

Train the Hyrox stations at home: sled work, SkiErg pulls, wall balls, sandbag lunges, and farmers carries, plus the shoes and heart rate strap to keep every compromised run honest. Pair it with our free Hyrox training plan generator.

Budget build

~\$246

Race prep on a shoestring: training shoes, a heart rate strap, and the loadable basics (kettlebell, sandbag, vest, bands). Use your gym's SkiErg and sled for station work and save four figures.

Product	Approx price	Buy link
Reebok Nano Gym 1.0 REEBOK · TRAINING SHOES	\$70	Amazon
